IMPACT REPORT

2023 · Growing a living library

Land stewardship, tree planting, training and community care in Cazadero, West Sonoma County, California. In 2023 our nursery grew more than tenfold and neighbors, students and volunteers joined the work.

TREES AND LAND

1,000+ trees held in our expanded 1,500 sq ft nursery	**995** coast redwoods received from the Archangel Ancient Tree Archive	**20+ / 50** coast redwoods and oaks planted on the land[1]
48 tree planters trained	**3** creek restorers trained[2]	**1** beaver dam analog built on an incised creek

COMMUNITY AND LEARNING

80 neighbors at neighborhood roundtables	**25** Creative Essence weekend participants, 40% on scholarship	**27** on our Guerneville field trip: 20 students and 7 adults[3]
3 workshops hosted	**3** GMRS radios given to the community, plus a new emergency radio repeater	**2,250** approx. newsletter subscribers today[4]

MILESTONES

- Hippocrates tree planted (April 2023).
- Beaver dam analog built to help heal an incised creek, alongside creek restoration training.
- Emergency readiness: radio repeater installed and 3 GMRS radios given to neighbors.
- First holiday auction (November 24 to December 6).
- Partner program, WellKind (Guatemala): 52,000 native trees planted and 4 springs reforested around Lake Atitlan. Reported separately from our local Sonoma impact.
- Historic programs: in 2023 Teravana also hosted Awakened Spirit (23 trainings, 264 participants) and Tree School (25 people served, 20 acorns planted). Listed here as historic only.

[1] Sources differ on redwoods planted in 2023 (12, 20, or "300 being planted"); we show the conservative "20+".

[2] Records list 3 or 4 creek restorers; we show 3.

[3] One draft lists 30 for this trip; the impact tracker lists 20 students and 7 adults, which we use.

[4] Current list size as of October 2026, not a 2023 figure.

Sources: 2023 Impact Report sheet, 2022/23 impact document and Teravana impact tracker. WellKind figures come from partner records. Amounts in USD.
